Additional Backup Information

This contract is for the purchase of twelve BMW police motorcycles which will be assigned to the Austin Police Department (APD). APD currently has 73 motorcycles in its fleet. Motorcycles are used by police officers to conduct traffic enforcement on high-speed roadways, school zones and other areas throughout the city as needed. These motorcycles are also used in response to traffic hazards and accidents, and escort and traffic control services for approximately 150 events per year including but not limited to VIP visits, parades, political events, football games, etc.

The motorcycles purchased under this contract have met the Fleet Officer's eligibility criteria for replacement. The Fleet Service Center Managers have inspected each vehicle to be replaced and determined that the mileage or hours of use of each vehicle proposed for replacement cannot be increased without risking a significant increase in repair costs and loss of productivity due to down time.
